

## Welcome to Washington Circle Orthopaedics!

We are pleased that you have chosen Washington Circle Orthopaedics P.C., a Division of the Centers for Advanced Orthopedics, LLC for treatment of your injuries or pain in bones, muscles, joints or ligaments. All our physicians are board certified in general orthopaedics with additional training in one or more subspecialty area. In addition to treating general musculoskeletal conditions, we offer specialization in the shoulder and elbow, sports medicine and total joint replacement. The physicians and office staff are committed to making your experience with us as pleasant and as informative as possible. If you have any questions during your visit, please do not hesitate to ask.

As healthcare in our country continues to change and medical reimbursement becomes more difficult we have had to set in place certain office policies regarding co-pays, insurance claims, doctor referrals, forms and missed appointments. Please take the time to read these policies prior to being seen by your physician today. If you have any questions at all regarding these policies please feel free to ask our staff.

It is truly our pleasure to take care of your orthopaedic needs. On behalf of all the physicians and supporting staff we would like to welcome you to our practice.

Sincerely,

Craig Faulks, M.D.

David Lutton, M.D.
